THE 1933 GRADUATE FORTNIGHT

of The

NEW YORK ACADEMY OF MEDICINE

Metabolic Disorders will be the theme of the 1933 Graduate Fortnight of The New York Academy of Medicine. Two weeks of intensive study, from October 23 to November 3 inclusive, will be devoted to this important branch of medical science. The theoretical, physiologic and pathologic phases of Metabolism, as well as of certain of the associated endocrinologic problems will be treated in a series of lectures, round table discussions and clinical demonstrations. The latter will be given in fifteen of the leading hospitals of New York City.

Among the speakers who will participate in the Graduate Fortnight are included Drs. Eugene F. DuBois, Harold E. Himwich, Walter W. Palmer, Frank H. Lahey, Donald Dexter Van Slyke, Joseph C. Aub, Ashley Weech, Dana W. Atchley, Erwin Brand, Emanuel Libman, Rollin T. Woodyatt, Priscilla White, Nellis B. Foster, Herman O. Mosenthal, William S. Ladd, H. Rawle Geyelin, Albert A. Epstein, John P. Peters, Henry C. Sherman, Samuel W. Clausen, Alfred F. Hess, Lafayette Mendel, Wilder G. Penfield, Oscar M. Schloss, Henry L. Jaffe, Charles F. Bodecker and Leopold Lichtwitz.

An exhibit will be shown in connection with the Fortnight, material having been collected from many institutions in Metropolitan New York. The various aspects of metabolic disorders will be covered in this exhibition including the history of metabolism; dietary constituents and their derivatives; drug and other therapeutic measures; general and special pathological metabolism; and laboratory methods and procedures.

The subjects will be illustrated by means of charts, graphs, photographs, microphotographs, transparencies, x-rays, gross and pathologic specimens.

The profession of the country is invited to participate in the Graduate Fortnight.

A complete program and registration blank may be secured by addressing Dr. Frederick P. Reynolds, The New York Academy of Medicine, 2 East 103rd Street, New York City.
